CAREER OBJECTIVE

Motivated and detail-oriented Information Technology graduate seeking an opportunity to apply my knowledge of cybersecurity, networking, web technologies, and IoT systems in a professional environment. My long-term goal is to build a successful career as a cybersecurity and network security specialist, continuously enhancing my technical skills while contributing to the security, efficiency, and innovation of modern information systems. I am eager to learn, adapt to new technologies, and grow within an organization that values professional development and technological excellence.

EDUCATION

BSc (Hons) Computer Networking & IT Security

2024 – Present

Islington College
London Metropolitan University
Kamal Marg, Kamalpokhari, Kathmandu

SLC (School Leaving Certificate)

2023 – 2024

Kathmandu Model College (KMC)
National Examinations Board (NEB)
Bagbazar, Kathmandu

SEE (Secondary Education Examination)

Completed 2023

Shree Sharda Namuna Academy
National Examinations Board (NEB)
Lahan-1, Siraha

SKILLS

Technical Skills:

Networking: OSI Model, TCP/IP Protocol Suite, IPv4 and IPv6 Addressing, Subnetting, Router and Switch Configuration, VLAN Configuration, DHCP, DNS, Wireless Networking, Network Troubleshooting

Cybersecurity: Vulnerability Assessment, Network Scanning and Enumeration, Web Application Security Fundamentals, SIEM Log Management, IS Audit, Virtual Lab Setup

Programming Languages: Python, Java, HTML, CSS, JavaScript

Operating Systems: Windows, Kali Linux, Debian

Tools and Software: Cisco Packet Tracer, Wireshark, Oracle VirtualBox, Git, Arduino IDE

Cloud Technologies: AWS Cloud Fundamentals

Soft Skills:

Communication | Problem Solving | Team Collaboration | Time Management | Interpersonal Skills

PROJECTS

Gym Management System | Java, Swing, OOP

- Engineered a desktop application to automate gym operations using OOP principles.
- Developed modules for member registration, payment tracking, and attendance logging.

WeCare Beauty Store Inventory | Python, File I/O

- Built a console-based inventory and sales system.
- Automated a "buy three get one free" policy, generated invoices, updated inventory files, and applied price markups.

E-Commerce Website | Web Development

- Designed and built a full-stack e-commerce website with product catalogs, functional shopping cart, and secure user authentication.

Injection Flaws in Web Applications | Own Setup Environment

- Designed and configured a dedicated local environment to study and demonstrate injection-based vulnerabilities in web applications.

Automatic Radar-Based Missile Launcher System (IoT) | Arduino, Embedded Systems

- Designed and developed an automatic radar-based missile launcher system using Arduino as the core microcontroller.

TRAINING AND CERTIFICATIONS

- AWS Academy Graduate – Cloud Architecting | AWS Academy | 2026
- AWS Academy Graduate – Cloud Foundations | AWS Academy | 2026
- IT Security Foundations: Network Security | LinkedIn Learning | 2026
- Firewall Administration Essential Training | LinkedIn Learning | 2026
- Summer Industry Enrichment Programme (SIEP) – SIEM for Log Management | Islington College | 2025
- Summer Industry Enrichment Programme (SIEP) – IS Audit | Islington College | 2025
- Networking Basics | Cisco Networking Academy | 2025
- Introduction to Cybersecurity | Cisco Networking Academy | 2025
- Kali Linux Complete Master Class | Cyber Mind Space | 2025
- Cybersecurity Foundations | LinkedIn Learning | 2025
- Java Object-Oriented Programming | LinkedIn Learning | 2025
